

Conduit

Polytuff® I Conduit and Polytuff® II Liquidtight Conduit Tubing

Flexibility and Corrosion Resistance - Hubbell® Polytuff® I Conduit and Polytuff® II Tubing are entirely non-metallic, providing superior flexibility and outstanding corrosion resistance. Polytuff® conduit and tubing comes in sizes ranging from 1/4" to 2" diameter. Polytuff® is made from PVC which gives you the extra flexibility for tight turns, nonconductivity, corrosion resistance and ease of installation not found in metallic liquidtight conduit.

- PVC core with corrugated walls bonded to PVC jacket
- Handles twists, turns, bends, switchbacks and straightaways with ease
- All non-metallic construction ends fatigue and separation problems
- Can be cut with a knife or PVC cutters
- UL Recognized and CSA Certified.

1/2" Coil CARFLEX® Liquidtight Flexible Conduit

Steel Core / Thermoplastic Cover

Application

- Industrial, air conditioning, heating, and outdoor lighting applications

Part No.	Mfg. No.	Size	Length
0704429	15005-100	1/2"	100 ft

10' Schedule 40 PVC Conduit

- Corrosion Resistant to most chemicals
- PVC not typically affected by corrosive soils or salts
- UL Listed to UL 651

10' GRC - Galvanized Rigid Steel Conduit

Hot-dip galvanized for excellent corrosion resistance and is made from high strength ductile steel for long life and easy bending. UL Listed to UL 6, manufactured in accordance with ANSI C80.1.
