- Includes inflatable DrainDawg fitting to clear lines fast

ULTIMATE POWER

- Uses Nitrogen or CO₂
- Includes 10' flexible hose and blowgun assembly
- Includes boxed fitting kit
- Multiple uses
- Includes inflatable DrainDawg fitting to clear lines fast

CONDENSATE DRAIN PANS, FITTINGS, ADAPTERS cont'd

High Rise Pans™

The High Rise Pan™ is an innovative new plastic drain pan design which allows placement of an air handler 2 3/4in. above the outside lip of the pan without the need for separate, cumbersome mounting blocks. The pan has a molded in network of risers to give a 5in. lift. The risers are positioned to accept a wide variety of air handler sizes. Each riser has a specially shaped area at each end to accommodate a 2in. x 2in. anti vibration pad which allows for quiet operation at all times. Other features include heavy duty reinforcement throughout to give plenty of support as well as rolled edges for durability. One piece plastic construction ensures no rust, leaks, or seams to split. Each High Rise Pan™ comes complete with a Condensate Cop™ float switch, 6 EVA™ anti vibration pads, and 1 3/4in. PVC male adapter. Installation is straightforward and hassle free.

Metal Drain Pan

The ultimate in drain pan design — tailored for easy distribution and installation. Full of features to make life easier on both the distributor and the contractor. Seamless, one piece metal construction with rolled edges on all sides for maximum safety and integrity. Nestable as well — a stack of 70 pans is only a foot high! Once on site, you'll never have to return to the distributor for missing parts. The fittings are packaged with the pan for simple and efficient installation. Choose between two possible drain outlet positions and install with confidence.
