

Certifications & Approvals

Committed to Quality

Matco-Norca is committed to maintaining a high standard of quality for all the products we offer. Most products in this catalog are labeled with a designated approval or certification code. Below is a brief description of these approvals.

ADA American Disabilities Act — Protecting the rights of people with physical or mental disabilities.

ANSI American National Standards Institute — Organization that coordinates work among U.S. Standards writing groups; Works in conjunction with other groups such as ISO, ASME, ASTM, etc.

ASME American Society of Mechanical Engineers — Develops standards and testing criteria for finished products.

ASSE American Society of Sanitary Engineering — Develops standards and qualifies products for plumbing and sanitary installations.

ASTM American Society for Testing Materials — Develops standards for materials, products, systems and services.

AWWA American Water Works Association — Promotes public health through improvement of water quality. Develops standards for valves, fittings and equipment.

CSA Canadian Standards Association — Develops standards, tests and qualifies products used in gas lines and gas appliance installations.

FM Factory Mutual — Develops standards and qualifies products for use by the general public.

ISO International Standards Association — A worldwide process control organization. An internationally recognized certification for manufacturers that comply with high standards of quality control. Developed standards ISO-9000 through ISO-9004

MSS Mechanics Standardization Society of the Valves & Fittings Industry, Inc. — A committee of manufacturers that develops technical codes and standards for the valve & fitting industry.

SDWA The Safe Drinking Water Act — Is the main federal law that ensures the quality of Americans' drinking water. Under SDWA, EPA sets standards for drinking water quality and oversees the states, localities, and water suppliers who implement those standards. Weighted average lead content of water contact components must be 0.25% or less.

NSF NSF International — An organization committed to public health that writes standards and certifies products for food, water and consumer products.

UL Underwriter's Laboratory — Tests and qualifies valve and fittings products under UL standards for safety.

UPC Uniform Plumbing Code — Developed by the International Association of Plumbing and Mechanical Officials to govern the installation and inspection of plumbing systems as a means of promoting the public's health, safety and welfare.

USC University of Southern California — Foundation for Cross-Connection Control and Hydraulic Research that lists approved backflow prevention assemblies.

Lead Free Brass Pex Fittings

- NSF & UPC Approved
- Manufactured to ASTM Standard F1807

- Used with Pex Tubing
- Manufactured to ASTM Standard F876-877
