

## LIQUEFY GREASE, OIL, DIRT AND SOIL DEPOSITS ON CONDENSERS

- High solvency cleaning power
- Non-flammable
- Non-conductive
- Specially designed valve and dip tube provide exceptionally high pressure delivery
- No rinse required, cleaning solvent evaporates completely & leaves no residue
- Pleasant odor

### Description

A “no rinse required” condenser coil cleaner in a convenient aerosol package. Double action of high pressure blast and solvent cleaning restores design efficiency of condenser coils quickly and easily. It is non-flammable and non-conductive with no rinse required, as the cleaning solvent evaporates completely.

### Application

This high performance aerosol product offers maximum cleaning of condenser coils. The high solvency formula and blasting nozzle powerfully separates the undesirable materials from the surface.

Only use with adequate ventilation.

## Aerosol Products

### Nu-Blast®

### Directions for Use

1. Spray in well ventilated area as this product has a fragrance that will be objectionable to some people.
2. Be certain there is nothing behind coil that could be hit by spray. Place cloth or other protection under coil.
3. Spray entire coil surface, allowing blast pressure as well as cleaner to work. Thoroughly wet entire surface.
4. Allow the product to flush soils from the coil onto the cloth. Once the coil surface is dry by evaporation, cloth can be removed.

### Packaging

18 ounce can

4290-75

Read and understand the product’s label and Safety Data Sheet (“SDS”) for precautionary and first aid information.

The SDS is available on the Nu-Calgon website at [www.nucalgon.com](http://www.nucalgon.com).
