TECHNICAL SPECIFICATION

**SURE-VENT®
AIR ADMITTANCE VALVE
WALL BOX**

TECHNICAL SPECIFICATION: Sure Vent Air Admittance Wall Box can be used with any Air Admittance Valve requiring a recessed installation. Sure Vent AAV Wall Box accommodates 1-1/2", 2" or 3" adapters through box opening and provides louvered metal grille faceplate to conceal the AAV.

Materials and Dimensions

- Box – High Impact Polystyrene
- Faceplate – Metal

Features

- Metal grille faceplate allows air movement to the Sure-Vent while the box offers protection and access to the Sure-Vent behind the drywall.
- Grille is attached to the box using screws to the box frame.
- Box has four mounting brackets to secure it to the studs.
- AAV mounts inside the wall box to the DWV system via a 2" diameter molded-in drain port.
- Box will accommodate AAV with 1-1/2", 1-1/2" x 2" or 2" x 3" adapter.
- Sure-Vent Air Admittance Valve sold separately.
