SECURE WITH RACK-STRAP<sup>®</sup>

FOR YOUR TRUCK OR VAN RACK

# RACK-STRAP®

U.S. PAT. NO. 4,900,203

RS-1 Shown In Picture

Rack-Strap® holds on when rope and rubber cords fail.

Easy to use, takes only seconds to secure a load.

Saves valuable time and effort.

Eliminates the ongoing purchase of tie-down materials.

Permanently bolted or welded to the rack; always ready to use.

Multiple mounting brackets to fit almost any truck or van rack.

## SAFELY SECURES:

Pipe	Ladders
Lumber	Construction Materials

Rack-Strap® pays for itself every time material is loaded or unloaded. It takes only seconds to secure the load. Simply wrap the polyester strap around the bundle, hook the strap in place and use the built-in ratchet to apply the desired tension for a secure overhead load.

## FEATURES:

Steel constructed frame is zinc plated and yellow chromate finished for weather and salt protection.

The polyester strap is approximately 7 feet long and 1-1/2 inches wide. It is UV protected and water resistant.
