METALBEST

LOCKTAB® FEATURE FOR TYPE "B" RV GAS VENT

Our non-positional lock system on the MetalBest® RV Gas Vent is the best lock system on the market today. The incorporation of the LockTab® feature simply improves our lock system by adding flexibility and meeting market needs.

The Locktab is located on the female end of the gas vent.

The Locktab is then depressed with a thumb or blunt object such as a screwdriver into the lock channel of the male end

To disengage the Locktab, pry it up by using a screwdriver or knifeblade

3" THROUGH 8"

The RV line of MetalBest® round vent pipe and fittings is designed for use on approved gas appliances in residential and light commercial and industrial applications. Round vents for large appliances will be found in the QC section which follows.

NOTE: Size refers to the inside diameter of the pipe or fitting. The outside diameter of RV is approximately 1/2" larger. Outer material is 28 GA galvanized steel. Inner liner is aluminum.

LOCKTAB® - You no longer have to use sheet metal screws to secure pipe connections if local codes require you to. Just press the "LockTab®" and you are done.

ADJUSTABLE LENGTH - Used in combination with a straight length, this component assures that an exact required vent length can be achieved - Allows for easy disassembly and can absorb the linear expansion of longer pipe lengths Size
