

Pliers

Professional quality tools, precision crafted for ultimate balance, high strength and exacting performance.

- Forged and heat-treated for extended life and durability.
- Slip Joint and Tongue and Groove pliers feature a flush rivet design that provides a stronger tool and allows access to tighter areas.
- Cushioned grips are designed for comfort only. They are NOT intended as insulation against electric shock.

Snips

Model 788
Aviation Snips (cuts straight)

All RIDGID® Snips feature forged, heat-treated blades for increased quality and performance.

AVIATION SNIPS AND OFFSET SNIPS

Ideal for cutting 18-gauge or lighter cold-rolled sheet steel. Compound action results in maximum jaw power with minimum effort. Aviation snips threaded jaw bolt allows the blades to be realigned after prolonged use.

Model 787
Aviation Snips (cuts left)

METAL CUTTING SNIPS

Excellent for cutting sheet metal, screening, wire, leather, cloth, gasket material, rubber, linoleum, roofing material, plastics, etc. Handles designed for right-or-left hand use.

Model 786
Aviation Snips (cuts right)
