

# Pipe and Duct Holders

**Holds Duct or Venting in place until properly secured.**

Like an extra pair of hands, this job-site helper holds ductwork in place with clamps and a chain during installation until permanently secured. Temporarily suspending duct or venting from any joist is fast and easy. Double-ended keyhole also allows easy chain adjustment and locking in a horizontal clamping position, required for engineered joists, without the need to tie the chain around the clamp. Formed teeth hold the clamp securely in place on joist.

Double Ended Keyholes allow secure chain adjustment. Formed teeth hold clamp in place and secures chain in vertical or horizontal clamp position.

Holders also open wide and clamp securely for use on Engineered Wood Joists.

Holds duct in place, either between or under joists until properly secured.

**CAUTION:** 20 lbs (9 kg) Maximum Work Load  
For use on Residential Lumber and / or Engineered I-Beam Construction Only.
