Pipe Thread Compounds

TFE Paste

white thread compound

TFE Paste is a white thread compound made with PTFE. Paste lubricates all threaded joints, is non-hardening, non-separating and withstands up to 3,000 psi on gases from -50 to +400°F, and 10,000 psi on liquids from -50 to +500°F. For use with plastic or metal threaded pipe carrying water, steam, caustics or dilute acid.
