

## **PB7LPB Lighted Rectangular Pushbutton**

NuTone provides a wide selection of Pushbutton Doorbells and this one is no exception! This doorbell features a quality pushbutton with a U.V. Inhibitor touch pad surface that won't yellow in the sun and non-stick action for a lifetime of service. All with a design and style that reflects your personality!

- Lighted pushbutton for visibility after dark so anyone can find the doorbell
- Classic rectangular design sits up off the surface to greet your visitors
- The weather resistant Polished Brass finish will give you many years of dependable service
- Surface mount design fits brick molding, allowing you flexibility of surface installation choices
